\*We use standard backing material to stabilize the fabric, to prevent tearing and loosening of the embroidery.

\*Embroidery goes through the visual back-part of the tie; the backing is pulled off.

\*All type art needs to be at least ¼" thick to get a clear embroidery.

\*The art for ties should be above the 2 bottom end points so the machine can hold on to the fabric.

\*Setup charge +1 sew out for a supplied digitized tape is \$35 each.
